CT SUSTAINABLE GLOBAL EQUITY INCOME FUND (THE "FUND")

Class C Accumulation Shares (GBP) GB00BPCS4S23, a sub-fund of Columbia Threadneedle (UK) ICVC I (the "Company"), regulated by the FCA.
This sub-fund is managed by Columbia Threadneedle Fund Management Limited, (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

- Financial Objective: The Fund aims to achieve income with capital growth over the long term (5 years or more), and to provide an income yield higher than the MSCI All Country World Index over rolling 3-year periods, after the deduction of charges.
- Sustainability Objective: The Fund seeks to address the sustainability challenges facing people and the environment by investing in shares of companies that provide solutions aligned with the Fund's 7 "Sustainability Themes": Energy Transition, Resource Efficiency, Sustainable Infrastructure, Sustainable Finance, Societal Development, Health and Wellbeing, Technological Innovation & Inclusion.
- The Fund is actively managed and holds at least 90% of its assets in pursuit of its Sustainability Objective, by investing in a concentrated portfolio of companies (typically 30-50), whose products or services are providing solutions to environmental or social challenges in line with its Sustainability Themes.
- The companies selected for investment may be located anywhere in the world, be of any size and from any economic sector or industry, subject to the "Sustainable Investment Criteria". In accordance with this, we:
 - (1) Assess and select companies for investment using Columbia Threadneedle Investments Standard of Sustainability (the "Standard"), which ensures that environmental or social solutions being provided by companies not only align with the Sustainability Themes but are a material business driver i.e. 50% or more of their total net revenue is generated in this way (net means subtracting any revenues that are negatively aligned to the Themes from those that are positively aligned).
 - (2) Exclude companies whose activities are considered harmful to the environment or society, and therefore conflict with the Sustainability Objective, including companies with significant exposure (based on revenues) to weapons, tobacco, fossil fuels, or companies breaching international standards of business conduct.
- Further details about the Standard and exclusions can be found in the prospectus available on our website: www.columbiathreadneedle.com.
- The Fund is permitted to invest up to 10% in the following assets that do not pursue the Sustainability Objective: investments that have sustainability characteristics but don't currently meet the Standard; other assets including bonds, funds (including those managed by Columbia Threadneedle companies), money market instruments, deposits, and cash for the purpose of liquidity and risk management.
- The Fund may use derivatives for efficient portfolio management only.
- We seek to engage with companies to better understand how they are providing solutions to sustainability challenges aligned with the Sustainability Themes, and to encourage better management of environmental, social and governance (ESG) issues.
- Income from investments in the Fund will be added to the value of your shares.
- You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards

Higher Risk, Typically higher rewards

- The Fund is rated 5 because historically it has shown a medium to high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:
 - Currency Risk: your investment may be adversely affected by changes in currency exchange rates.
 - Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.
 - Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.
 - Portfolio Concentration Risk: The Fund has a concentrated portfolio (holds a limited number of investments and/or has a restricted investment universe) and if one or more of these investments declines or is otherwise affected, it may have a pronounced effect on the Fund's value.
- Sustainable Investment Criteria: The Fund aims to invest in companies which deliver sustainable outcomes and in doing so adheres to a set of sustainable investment guidelines. The guidelines will affect the Fund's exposure to certain sectors, which may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year
