CT (LUX) RESPONSIBLE GLOBAL EQUITY (THE "FUND")

Class R Shares (EUR Distribution Shares) LU0969484335, a sub-fund of Columbia Threadneedle (Lux) III (the "Company"), regulated by the CSSF.

This Fund is managed by Threadneedle Management Luxembourg S.A. (the "Manager")

Objectives and Investment Policy

- The objective is to achieve long-term capital growth.
- The Fund seeks to achieve this by investing in equities and equity related securities such as warrants (the right to purchase a security, usually an equity, at a specific price within a certain time frame) of companies in any market.
- For inclusion in the investable universe, companies are screened against defined responsible criteria using data providers and primary research. An external advisory council provides advice on ethical, social, and environmental criteria and reviews screening decisions. Responsible criteria include exclusions on tobacco, alcohol, weapons, gambling, nuclear and pornography. In addition, the Fund requires companies to meet sector standards on social and environmental impacts. Depending on the sector, these include systems for managing labour standards, human rights, supply chains, environmental impacts, water, waste, and biodiversity.
- The Fund is actively managed in reference to the MSCI World NR Index. The index is broadly representative of the securities in which the Fund invests, and provides a suitable comparator benchmark against which Fund performance will be measured and evaluated over time.
- The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index. The Fund may invest in currency forward contracts involving any currency for portfolio hedging purposes.
- Any income the Fund generates will be paid to you.
- You can buy or sell shares in the Fund on any day which is a business day in Luxembourg and London. You can find more detail on the investment objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see the Glossary available at columbiathreadneedle.com.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,
Typically lower rewards

Higher Risk,
Typically higher rewards

- The Fund is rated 6 because historically it has shown a high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The indicator does not take into account the following risks:
 - Counterparty Risk: to gain greater income the Fund may deposit cash with various approved Counterparties. Return of the cash is dependent upon the continued solvency of the Counterparty.
 - Currency Risk: your investment may be adversely affected by changes in currency exchange rates.
 - Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent un-screened fund.
 - Market Risk: the value of assets held by the Fund may go down as well as up. There can be no assurances that the investment objectives of the Fund will be achieved.
 - Warrant Risk: small movements in the price of the asset to which the warrant relates may result in a disproportionately large movement, up or down, in the price of the warrant.
 - Style Bias Risk: an investment style bias can impact a fund's performance relative to its benchmark in a positive or negative way. No investment style performs well in all market conditions. When one style is in favour another may be out of favour. Such conditions may persist for short or long periods. A fund exhibits a growth style bias relative to its benchmark if the majority of the fund invests in companies with above average growth rates, or good growth potential (based on indicators such as earnings and sales growth) relative to its benchmark. However, there is no guarantee that such companies will continue to show such characteristics in the future. A fund's investment style may also change over time.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	0.95%
------------------	-------

Charges taken from the fund under certain specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure is based on expenses for the year ending 29/11/24. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

For more information about charges please see the Fund's prospectus.
