

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT RESPONSIBLE UK INCOME FUND (THE "FUND")

Class L Accumulation Shares (GBP) GB00BN460T36, a sub-fund of Columbia Threadneedle (UK) ICVC V (the "Company"), regulated by the FCA.
This sub-fund is managed by Columbia Threadneedle Fund Management Limited, (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

- The objective is to achieve income with prospects for capital growth over the long term (at least 5 years). It looks to provide a distributable income yield higher than the FTSE All-Share Index over rolling 3-year periods.
- The Fund invests only in assets which meet the Fund's predefined responsible investment criteria.
- The Fund invests at least 80% in shares of UK companies. These are companies in any economic sector and of any size, which are incorporated, domiciled or conduct a significant portion of their business in the UK.
- The Fund may also invest in investment grade, Sterling denominated corporate bonds.
- The Fund may use derivatives for the purposes of efficient portfolio management only.
- As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis. Through this process, the Investment Manager: (1) avoids investments that are contrary to the goals of making positive contributions to society and/or the environment, taking into account both product based exclusions and conduct based exclusions; (2) invests predominantly in companies that meet high standards in how they operate, based on an assessment of their policies and performance with respect to overall sustainability management; and (3) improves companies by selecting those that, in the Investment Manager's opinion, will benefit from active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value.
- The Fund is actively managed. The FTSE All-Share Index is regarded as an appropriate performance measure of the UK stock market. The income yield of this index (calculated using dividends declared by its constituent companies) provides a suitable target benchmark against which the level of income generated by the Fund will be measured and evaluated over time.
- Income from investments in the Fund will be added to the value of your shares.
- You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards

Higher Risk, Typically higher rewards

- The Fund is rated 5 because funds of its type typically show medium to high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:
 - Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.
 - Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.
 - Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.
 - Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.
 - ESG Investment Criteria Risk: The Fund may apply a range of measures as part of its consideration of ESG factors, including the exclusion of investments involved in certain industries and/or activities. This reduces the investable universe and may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
 - Credit Risk: receiving income or capital due from debt instruments is dependant on the provider's ability to pay.
 - Yield Risk: the yield on the FTSE All-Share Index can fall and rise and is not guaranteed.
 - Charges from Capital Risk: taking the charges from the capital of the Fund to increase the distributable income may impact on capital returns.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	0.92%
------------------	-------

Charges taken from the fund under certain specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure shown here is an estimate of the charges because the share/unit class is relatively new and has insufficient track record for us to calculate it exactly. The UK-UCITS' annual report for each financial year will include detail on the exact charges made.

For more information about charges please see the Fund's prospectus.

Past Performance

Insufficient data to provide a useful indication of past performance to investors.

Fund launch date: 13/10/1987

Share/unit class launch date: 05/03/2025

Practical Information

- This document is issued by Columbia Threadneedle Fund Management Limited, a wholly owned subsidiary of Columbia Threadneedle Investments UK International Limited.
- Further information regarding the Fund including copies of the prospectus, annual and half yearly report and accounts can be obtained free of charge from Columbia Threadneedle Investments, Cannon Place, 78 Cannon Street, London EC4N 6AG, or electronically at www.columbiathreadneedle.co.uk.
- The Fund is part of Columbia Threadneedle (UK) ICVC V. You may switch investment between other funds or share classes of Columbia Threadneedle (UK) ICVC V. An entry charge may apply. Details on switching are provided in the Fund's prospectus.
