

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT (LUX) US CONTRARIAN CORE EQUITIES (THE "FUND")

Class ZEH (EUR Accumulation Hedged Shares) LU0957798670, a sub-fund of Columbia Threadneedle (Lux) I (the "SICAV"), regulated by the CSSF.
The management company of the SICAV is Threadneedle Management Luxembourg S.A. (the "Management Company") (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

- The Fund aims to increase the value of your investment over the long term.
- The Fund invests at least two-thirds of its assets in shares of large companies in the US or those that have significant operations there. These companies will generally have a market value of more than US\$ 2 billion at the time of purchase. A "contrarian" approach is used to select the Fund's investments and the fund manager will generally target shares that have underperformed, but which they believe have the potential for recovery.
- The Fund invests directly in these assets or may seek to gain exposure to these assets indirectly by using derivatives (complex instruments). The Fund may also use derivatives for hedging purposes or to manage the Fund more efficiently. Derivatives may create leverage (market exposure in excess of the net asset value of the Fund).
- The Fund may also invest in asset classes and instruments different from those stated above.
- The Fund is actively managed in reference to the S&P 500 Index. The index is broadly representative of the companies in which the Fund invests, and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time. The index is not designed to specifically consider environmental or social characteristics. The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.
- The Fund promotes environmental and social characteristics by integrating a range of responsible investment measures into the investment process, and ensures that the companies it invests in follow good governance practices. The Fund aims to compare favourably against the index over rolling 12-month periods when assessed using the Columbia Threadneedle ESG (environmental, social and governance) Materiality Rating model, which indicates how much exposure a company has to material ESG risks and opportunities. At least 50% of the Fund is invested in companies that have a strong rating.
- The Fund also commits to investing at least 10% of its assets in sustainable investments. The Fund excludes companies that derive certain levels of revenue from industries such as, but not limited to, coal and tobacco. It also excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles. The fund manager engages with companies to encourage improvement of their ESG practices.
- Further information about the environmental or social characteristics promoted by the Fund is available in the SFDR RTS Annex of the Prospectus available at www.columbiathreadneedle.com. The Fund is considered to fall within the scope of Article 8 of SFDR.
- Income from investments in the Fund will be added to the value of your shares.
- You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. You can find more detail on the investment objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see the Glossary available at columbiathreadneedle.com.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is rated 6 because historically it has shown a high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund may invest materially in derivatives (complex instruments linked to the rise and fall of the value of other assets). A relatively small change in the value of the underlying investment may have a much larger positive or negative impact on the value of the derivative.
- The Fund applies a range of measures as part of its consideration of ESG factors, including the exclusion of investments involved in certain industries and/or activities. This reduces the investable universe, and may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
- There is no guarantee that the hedging strategy applied in Hedged Shares will entirely remove the effects of changes in exchange rates between the Base Currency and the currency of the Hedged Shares.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|---------------|-------|
| Entry Charge: | 5.00% |
| Exit Charge: | 0.00% |

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

| | |
|------------------|-------|
| Ongoing Charges: | 0.90% |
|------------------|-------|

Charges taken from the fund under certain specific conditions

| | |
|------------------|------|
| Performance Fee: | NONE |
|------------------|------|

Switching charge (for switching into the Fund from another fund) 0.75%

The ongoing charges figure shown here is an estimate of the charges because the historic figures do not accurately reflect the future ongoing costs. The UCITS' annual report for each financial year will include detail on the exact charges made.

For more information about charges please see the Fund's prospectus.

Past Performance
