Fund manager

Eloise Robinson

Sustainability Label

This product has a "Sustainability Focus" label: it invests mainly in assets that focus on sustainability for people or the planet. Sustainable investment labels help investors find products that have a specific sustainability goal.

Morningstar Rating[†]

Fund objective and policy

The Fund seeks to provide growth, combining capital and income over the long term, consistent with a balanced risk profile. It seeks to address sustainability challenges facing people and the environment by investing in issuers whose products, services or investments provide solutions aligned to its "Sustainability Themes": e.g. Energy transition, Resource efficiency, Sustainable infrastructure. The Fund gains exposure to a range of global asset classes, but at least 70% is invested in company shares, or bonds. Typically, 30-70% is held in shares, in keeping with a balanced risk profile. We assess and select investments using Columbia Threadneedle's Standard of Sustainability, to ensure issuers' solutions align to the Sustainability Themes and are material e.g. a business driver. We exclude issuers whose activities are harmful to the environment or society e.g. those with significant exposure to weapons, tobacco, coal, oil and gas. The Fund does not invest in issuers breaching international standards.

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Glossary

Active Engagement Report

We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
