Fund objective and policy

The Fund aims to achieve high returns by investing in balanced portfolio of convertible bonds. The Fund is actively managed. It is not constrained by its comparator benchmark, the FTSE Global Focus Customised TR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's composition. The Fund seeks to achieve its objective by investing in bonds issued by corporations located in Europe, the US, Japan and Asia. The Fund normally holds at least 51% of its assets in convertibles the Manager considers investment grade, subject to the convertible bond market providing sufficient 'balanced' investment grade opportunities to run a well-diversified portfolio. A balanced convertible is one not trading too far above its bond redemption value and/or not trading at too high a conversion premium.

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. The income and capital due from bonds is dependent upon the issuer's ability to pay and any default will adversely affect the value of your investment. Changes in interest rates can affect the value of fixed interest holdings and may adversely affect the value of your investment. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Fund details

Glossary

Active Engagement Report	We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
