

# CT (Lux) Responsible Global Equity

## At a glance

This global equity fund invests in carefully selected companies with a clear focus on sustainability, supporting our ambition to make a positive impact with our investment activities.

## Investment objective & policy

To generate long-term capital growth by investing in a high-conviction portfolio of global companies of any market capitalisation that deliver sustainable outcomes.

The Fund is actively managed in reference to the MSCI World Index. The Fund is not constrained by this benchmark and, in line with its active management strategy, portfolio holdings may deviate significantly from those of the index.

## Risks

This fund is suitable for investors who can tolerate high levels of risk and volatility and have a long-term investment horizon. Investors could lose some or all their capital and should read the Prospectus for a full description of all risks.

**Investment risks:** Investment in equities, smaller companies, derivatives, portfolio concentration and Environmental, Social and Governance (ESG) criteria.

**Associated risks:** Screening out sectors or companies may result in less diversification and therefore more volatility.

# Investment approach

Sustainability lies at the heart of our portfolio. Strict exclusion criteria ensure we avoid sectors and companies involved in damaging practices. At the same time, we want to invest in sustainable companies or those that actively support sustainability. Our Global Equities team works closely with our Responsible Investment (RI) specialists to assess the impact of individual businesses, including within their supply chains.

Our 'A.I.M.' framework helps identify companies that can make a real difference. In-depth assessment of these distinct features allows us to focus on those that are authentic sustainability leaders. Once a sustainable opportunity is identified we conduct detailed fundamental research, seeking to identify high-quality, well managed and attractively priced companies.

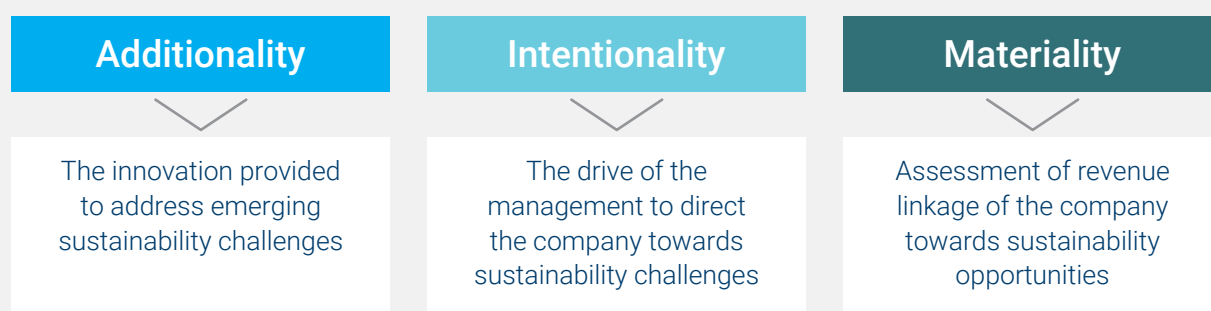

**High-quality businesses:** we look for readily understandable business models with durable competitive advantages, supported by long-term growth drivers. Additionally, we seek positive alignment with the United Nations Sustainable Development Goals.

**Strong management:** we want to entrust our clients' capital to proven, well-incentivised management teams with a consistent track record of execution and a responsible approach to capital allocation.

**Attractive price:** the success of an investment is determined by the price you pay and ultimately sell. We seek opportunities with meaningful upside potential and use discounted cash flow to determine a conservative assessment of intrinsic value.

Active ownership is a key part of our investment philosophy. Our portfolio managers work closely with our RI specialists to gain a deep understanding of a company's commitment to sustainability and their ESG practices. Through focused engagement and voting we seek to drive positive change in the companies we invest in on ESG issues.
